Thoothukudi, Tamil Nadu, India

Summary

B.E. Cyber Security student with foundational knowledge of cybersecurity, ethical hacking, networking, and Python. Completed a 15-day internship at G-TEC and developed web-based projects. Seeking an entry-level cybersecurity role to enhance practical skills and gain industry experience.

Technical Skills

Cyber Security Cybersecurity Fundamentals, Ethical Hacking Fundamentals
Programming Python (Fundamentals)
Web Technology HTML, CSS, JavaScript
Networking Computer Networking Fundamentals
Development Front-End Development, Full-Stack Development

Project

1. Phishing URL Detector

- Developed a web-based tool to identify potentially malicious URLs using Python.
- **Technologies:** Python, HTML, CSS
- **Project Link:** https://lakshu-2006.github.io/Phishing-URL-Detector/

2. Cyber Path Quiz

- Created an interactive quiz to improve cybersecurity awareness and test basic security knowledge.
- **Technologies:** HTML, CSS, JavaScript
- **Project Link:** https://lakshu-2006.github.io/Cyber-Path/

Internship

Cybersecurity Intern – Ethical Hacking G-TEC Computer Education, Colachel **Duration:** 15 Days | **July 2025**

- Completed a 15-day internship focused on cybersecurity fundamentals and ethical hacking.
- Gained exposure to cybersecurity concepts and security-related hands-on training.
- Developed foundational knowledge of ethical hacking principles and information security.

Education

B.E Cyber Security
Udaya School Of Engineering, Nagercoil,Vellamodi *Sep 2023 – Present*
September 2023 – Present
Expected Graduation: 2027
Currently pursuing a degree with an interest in Cybersecurity, Ethical Hacking, and Computer Networking.

Certifications

- Cyber Security — G-TEC
- Anatomy of Ethical Hacking — G-TEC
- Full-Stack Development — NoviTech R&D Private Limited
- Front-End Technologies — IBM
- HTML, CSS, and JavaScript for Beginners — IBM
